#### Part III

Administrative, Procedural, and Miscellaneous

26 CFR 601.105: Examination of returns and claims for refund, credit, or abatement; determination of correct tax liability.
(Also Part I, § 280F; 1.280F-7, 1.61-21.)

Rev. Proc. 98-30

### SECTION 1. PURPOSE

This revenue procedure provides: (1) limitations on depreciation deductions for owners of passenger automobiles first placed in service during calendar year 1998, including separate limitations on passenger automobiles designed to be propelled primarily by electricity and built by an original equipment manufacturer (electric automobiles); (2) the amounts to be included in income by lessees of passenger automobiles first leased during calendar year 1998, including separate inclusion amounts for electric automobiles; and (3) the maximum allowable value of employer-provided automobiles first made available to employees for personal use in calendar year 1998 for which the vehicle cents-per-mile valuation rule provided under § 1.61-21(e) of the Income Tax

Regulations may be applicable. The tables detailing these depreciation limitations and lessee inclusion amounts reflect the automobile price inflation adjustments required by § 280F(d)(7) of the Internal Revenue Code. The maximum allowable automobile value for applying the vehicle cents-per-mile valuation rule reflects the automobile price inflation adjustment of § 280F(d)(7) as required by § 1.61-21(e)(1)(iii)(A).

### SECTION 2. BACKGROUND

For owners of automobiles, § 280F(a) imposes dollar limitations on the depreciation deduction for the year that the automobile is placed in service and each succeeding year. In the case of electric automobiles placed in service after August 5, 1997, and before January 1, 2005, § 280F(a)(1)(C) requires tripling of these limitation amounts. Section 280F(d)(7) requires the amounts allowable as depreciation deductions to be increased by a price inflation adjustment amount for passenger automobiles placed in service after calendar year 1988.

For leased automobiles, § 280F(c) requires a reduction in the deduction allowed to the lessee of the automobile. The reduction must be substantially equivalent to the limitations on the depreciation deductions imposed on owners of automobiles. Under § 1.280F-7(a), this reduction requires the lessees to include in gross income an inclusion amount

determined by applying a formula to the amount obtained from a table. There is a table for lessees of electric automobiles and a table for all other passenger automobiles. Each table shows inclusion amounts for a range of fair market values for each tax year after the automobile is first leased.

For automobiles first provided by employers to employees that meet the requirements of § 1.61-21(e)(1), the value to the employee of the use of the automobile may be determined under the vehicle cents-per-mile valuation rule of § 1.61-21(e). Section 1.61-21(e)(1)(iii)(A) provides that for an automobile first made available after 1988 to any employee of the employer for personal use, the value of the use of the automobile may not be determined under the vehicle cents-per-mile valuation rule for a calendar year if the fair market value of the automobile (determined pursuant to § 1.61-21(d)(5)(i) through (iv)) on the first date the automobile is made available to the employee exceeds \$12,800 as adjusted by § 280F(d)(7).

### SECTION 3. SCOPE AND OBJECTIVE

- 01. The limitations on depreciation deductions in section 4.02 of this revenue procedure apply to automobiles (other than leased automobiles) that are placed in service in calendar year 1998 and continue to apply for each tax year that the automobile remains in service.
- 02. The tables in section 4.03 of this revenue procedure apply to leased automobiles for which the lease term begins in

calendar year 1998. Lessees of such automobiles must use these tables to determine the inclusion amount for each tax year during which the automobile is leased.

- 03. <u>See</u> Rev. Proc. 96-25, 1996-1 C.B. 681, for information on determining inclusion amounts for automobiles first leased before January 1, 1997; Rev. Proc. 97-20, 1997-11 I.R.B. 10, for automobiles first leased during calendar year 1997, including electric automobiles first leased on or after January 1, 1997, and before August 6, 1997; and Rev. Proc. 98-24, 1998-10 I.R.B. 31, for electric automobiles first leased after August 5, 1997, and before January 1, 1998.
- 04. The maximum fair market value figure in section 4.04(2) of this revenue procedure applies to employer-provided automobiles first made available to any employee for personal use in calendar year 1998. See Rev. Proc. 97-20, for the maximum fair market value figure for automobiles first made available in calendar year 1997.

### SECTION 4. APPLICATION

01. A taxpayer placing an automobile in service for the first time during calendar year 1998 is limited to the depreciation deduction shown in Table 1 of section 4.02(2) or, in the case of an electric automobile, Table 2. A taxpayer first leasing an automobile in calendar year 1998 must determine the inclusion amount that is added to gross income using Table 3 of section 4.03 or, in the case of an electric automobile, Table 4. Otherwise, the procedures of

- § 1.280F-7(a) must be followed. An employer providing an automobile for the first time in calendar year 1998 for the personal use of any employee may determine the value of the use of the automobile by using the cents-per-mile valuation rule in § 1.61-21(e) if the fair market value of the automobile does not exceed the amount specified in section 4.04(2). If the fair market value of the automobile exceeds the amount specified in section 4.04(2), the employer may determine the value of the use of the automobile under the general valuation rules of § 1.61-21(b) or under the special valuation rules of § 1.61-21(d) (Automobile lease valuation) or § 1.61-21(f) (Commuting valuation) if the applicable requirements are met.
- 02. <u>Limitations on Depreciation Deductions for Certain</u>
  Automobiles.
- (1) Amount of the Inflation Adjustment. Under § 280F(d)(7)(B)(i), the automobile price inflation adjustment for any calendar year is the percentage (if any) by which the CPI automobile component for October of the preceding calendar year exceeds the CPI automobile component for October 1987. The term "CPI automobile component" is defined in § 280F(d)(7)(B)(ii) as the "automobile component" of the Consumer Price Index for all Urban Consumers published by the Department of Labor (the CPI). The new car component of the CPI was 115.2 for October 1987 and 140.6 for October 1997. The October 1997 index exceeded the October 1987 index by

- The Internal Revenue Service has, therefore, determined that the automobile price inflation adjustment for 1998 is 22.05 percent  $(25.4/115.2 \times 100\%)$ . This adjustment is applicable to all automobiles that are first placed in service in calendar year 1998. The dollar limitations in § 280F(a) must therefore be multiplied by a factor of 0.2205, and the resulting increases, after rounding to the nearest \$100, are added to the 1988 limitations to give the depreciation limitations applicable to passenger automobiles (other than electric automobiles) for 1998. To determine the dollar limitations applicable to an electric automobile first placed in service during calendar year 1998, the dollar limitations in § 280F(a) are tripled in accordance with § 280F(a)(1)(C) and are then multiplied by a factor of 0.2205; the resulting increases, after rounding to the nearest \$100, are added to the tripled 1988 limitations to give the depreciation limitations for 1998.
- (2) Amount of the Limitation. For automobiles (other than electric automobiles) placed in service in calendar year 1998, Table 1 contains the dollar amount of the depreciation limitations for each tax year. For electric automobiles placed in service in calendar year 1998, Table 2 contains these amounts.

### 03. Inclusions in Income of Lessees of Automobiles.

The inclusion amounts for automobiles first leased in calendar year 1998 are calculated under the procedures described in § 1.280F-7(a). Lessees of automobiles other than electric automobiles should use Table 3 in applying these procedures, while lessees of electric automobiles should use Table 4.

- 04. <u>Maximum Automobile Value for Using the Cents-per-</u> mile Valuation Rule.
- Amount of Adjustment. Under (1)§ 1.61-21(e)(1)(iii)(A), the limitation on the fair market value of an employer-provided automobile first made available to any employee for personal use after 1988 is to be adjusted in accordance with § 280F(d)(7). Accordingly, the adjustment for any calendar year is the percentage (if any) by which the CPI automobile component for October of the preceding calendar year exceeds the CPI automobile component for October 1987 (See, section 4.02(1).) The new car component of the CPI was 115.2 for October 1987 and 140.6 for October 1997. October 1997 index exceeded the October 1987 index by 25.4. The Internal Revenue Service has, therefore, determined that the adjustment for 1998 is 22.05 percent  $(25.4/115.2 \times 100\%)$ . This adjustment is applicable to all employer-provided automobiles first made available to any employee for personal use in calendar year 1998. The maximum fair market value specified in § 1.61-21(e)(1)(iii)(A) must therefore be multiplied by a factor of 0.2205, and the resulting increase, after rounding to the nearest \$100, is added to \$12,800 to give the maximum value for 1998.
- (2) The Maximum Automobile Value. For automobiles first made available in calendar year 1998 to any employee of the employer for personal use, the vehicle cents-per-mile valuation rule may be applicable if the fair market value of

the automobile on the date it is first made available does not exceed \$15,600.

### SECTION 5. EFFECTIVE DATE

This revenue procedure is effective for automobiles (other than leased automobiles) that are first placed in service during calendar year 1998, to leased automobiles that are first leased during calendar year 1998, and to employer-provided automobiles first made available to employees for personal use in calendar year 1998.

### DRAFTING INFORMATION

The principal author of this revenue procedure is Bernard P. Harvey of the Office of the Assistant Chief Counsel (Passthroughs and Special Industries). For further information regarding the depreciation limitations and lessee inclusion amounts in this revenue procedure, contact Mr. Harvey at (202) 622-3110; for further information regarding the maximum automobile value for applying the vehicle centsper-mile valuation rule, contact Ms. Janine Cook of the Office of the Associate Chief Counsel (Employee Benefits and Exempt Organizations) at (202) 622-6040 (not toll-free calls).
